Trade Plan

**Why is a trade plan important?
This is going to be Unique to you
but here is an example of my own
personal trade plan. Remember,
my trade plan may not be for
everyone and its not designed to
be which is why it wasn't shared as
its personal to me.**

**You have been given the tools but
it is down to you to find what pairs
what entry types and what style of
trader you want to be. I want you
to be independent, no a follower.
Hope this helps structure your own
plan.**

Trade Plan

**Now this is my basic go to plan.

exact replicas cause you are not me and I
am not you.**

**However, I hope this helps you structure a
plan for yourself.**

Once you make a plan, Stick to it.

**Do not try and copy plans of others.
Understand when you trade best and what
brings the best out of you. This will be
established with time and journalling your
journey as a trader. Be as lenient or as strict
as possible.**
