Offer Details: Fresh Issue of Equity Shares aggregating upto ₹ 5,000 Cr and Offer for Sale of Equity Shares aggregating upto ₹ 2,460. Reservation for Employee.

Promoters: The company is a professionally managed company and does not have an identifiable promoter.

Date of Filing: 02-11-2021	Date of SEBI Approval: 13-01-2022	Face value: ₹ 1/-
Approx. Issue Size (₹ Cr): 7,460	BRLMs: : Kotak Mahindra Capital, Morgan Stanley, BofA Securities, Citigroup Global	
Category Allocation: QIB:HNI:Retail: 75:15:10		

Company: Delhivery Limited is largest and fastest growing fully integrated logistics player in India by revenue as of Fiscal 2021. They provide a full-range of logistics services, including express parcel delivery, heavy goods delivery, part-truckload freight, truckload freight, warehousing, supply chain solutions, cross border express and freight services and supply chain software. This is achieved through their high-quality logistics infrastructure and network engineering, a vast network of domestic and global partners and significant investments in automation, all of which are orchestrated by their self-developed logistics operating system that is guided in real-time by deep sources of proprietary network and environmental data.

Industry: The Indian logistics sector had a direct spend of US\$216 billion in Fiscal 2020, which is expected to grow to US\$365 billion by Fiscal 2026, driven by strong underlying economic growth, favourable regulatory environment, improvements in India's transportation infrastructure and growth of domestic manufacturing and the digital economy. The industry is fragmented with organized players accounting for approximately 3.5% of the market for road transportation, warehousing and supply chain services in Fiscal 2020. This is expected to reach 12.5-15.0% in Fiscal 2026, implying a CAGR of approximately 35% between Fiscal 2020 and Fiscal 2026.

Company: Radiant Cash Management Limited is an integrated cash logistics player with leading presence in retail cash management ("RCM") segment of the cash management services industry in India and is one of the largest players in the RCM segment in terms of network locations or touch points served as of July 31, 2021. The Company provides services across 12,150 pin codes in India covering all districts (other than Lakshadweep) with about 42,420 touch points serving more than 4,700 locations as of July 31, 2021. Their marquee clients includes some of the largest foreign, private and public sector banks, and the end user of their services include some of the largest e-commerce companies, retail chains, NBFCs, insurance firms, ecommerce logistics players, railways and retail petroleum distribution outlets. For the four months ended July 31, 2021 and Fiscals 2021, 2020 and 2019, the total annual currency movement, or the total value of the currency passing through their RCM business, amounted to ₹ 368.39 billion, ₹ 912.22 billion, ₹ 1,290.77 billion and ₹ 1,131.34 billion. They operates their business across 5 verticals, namely 1) cash pick-up and delivery; 2) network currency management (also known as cash burial in industry parlance); 3) cash processing; 4) cash vans /cash in transit and 5) other value added services.

Industry: Cash in Circulation (CIC) is the sum of cash held by banks and currency held by the general public. In the last decade (FY 11- FY 21), CIC has almost increased 3 folds (at a CAGR of 9.85%), showing a positive growth rate for the period. A growth in CIC is essential for higher economic activity in the country and augurs well for the companies engaged in cash management industry. While demonetization had a significant impact on CIC, the release of pentup demand after re-monetization, wealth redistribution, and lower lending rates, led to a v-shaped recovery of the total cash in circulation, which has since then almost doubled (in FY 21). As on August 20, 2021, CIC in India stood at a value of ₹ 29.5 trillion. CIC is predicted to reach ₹ 41.5 trillion by FY25, growing at a CAGR of 9.95%.

Company: Five Star Business Finance Limited is an NBFC providing secured business loans to micro-entrepreneurs and self-employed individuals, each of whom is largely excluded by traditional financing institutions. They are headquartered in Chennai, Tamil Nadu with a strong presence in south India and all of their loans are secured by their borrowers' property, predominantly being self-occupied residential property. They have developed a business model that is predicated on arriving at an appropriate risk framework, with the optimal instalment to income ratio to ensure that their customers have the necessary means to repay the loan after meeting their regular obligations and other event-based capital requirements.

Industry: The Company operates in the small business finance industry. Customers in small business finance segment are generally self-employed non-professionals (carpenter, plumber, vegetable vendor, small shop keepers, etc.) and micro-entrepreneurs, people who may not have income proofs. Given the lack of income proofs, the underwriting process typically requires detailed personal discussion with the borrower as well as acquaintances and neighbours to assess the source of income and pattern of cash inflows and outflows as well as the stability and behavioural aspects of the customer.

Company: Sterlite Power Transmission Limited has two business lines: Global Infrastructure and Solutions. Their Global Infrastructure business line bids for, designs, constructs, owns and operates power transmission assets and currently has operations in India and Brazil. Their Solutions business line consists of the products sub-segment, which manufactures and supplies a wide range of products including high performance power conductors, optical ground wire and extra-high voltage cables; and the Master System Integration subsegment, which provides solutions for the upgrade, uprate and fiberization of existing transmission infrastructure projects. They also operate the Convergence business line, which leverages existing power utility infrastructure for telecommunications purposes by building optical fibre infrastructure on top of existing utilities networks.

Industry: The power sector in India is governed by central and state regulatory agencies including the CERC, the CEA and the state electricity regulatory commissions. Robust generation capacity addition over the years and government's focus on 100% rural electrification through last mile connectivity has led to extensive expansion of the transmission and distribution system across the country. The total length of domestic transmission lines rose from 3,39,737 ckm in fiscal 2016 to 4,41,821 ckm in fiscal 2021. Brazil's power sector is set to see robust growth over the coming decade, in which Fitch forecasts total electricity capacity will increase from 181.6GW in year-end 2020 to 238.5GW in 2030. Subsequently, electricity generation will reach 785TWh in 2030—up from 601TWh in 2020.

Company: Electronics Mart India Limited is the 4th largest consumer durable and electronics retailer in India and as of Financial Year 2020. They are the largest player in the Southern region in revenue terms with dominance in the states of Telangana and Andhra Pradesh. They offer a diversified range of products which includes more than 6,000 SKUs across product categories like large appliances, mobiles, small appliances, IT and other from more than 70 consumer durable and electronic brands. As on August 15, 2021, they operated 99 stores with 88 Multi-Brand Outlets (MBOs) and 11 Exclusive Brand Outlets (EBOs) across 31 cities / urban agglomerates with a retail business area of 0.99 million sq. ft.

They are one of the fastest growing consumer durable & electronics retailers in India with revenue CAGR of 25.60% from Financial Year 2015 to Financial Year 2020. They have consistently demonstrated profitability with a robust operating performance. They have the highest EBITDA margins in Financial Year 2020 amongst its peers.

Industry: Despite short-term impact, long-term industry growth story remains intact. India's retail industry clocked a healthy 9.5% compound annual growth rate between fiscals 2016 and 2020, backed by rising urbanisation, nuclearisation, increased disposable incomes, and improving affordability and consumer sentiment. CRISIL Research estimates the size of India's consumer durables industry, including large consumer durables mobile phones, and smaller appliances, at ~ Rs 2.4 trillion as of Financial Year 2021. The industry recorded ~12% CAGR between fiscal 2015 and 2019 backed by increasing disposable incomes, lower penetration, widening product base, competitive pricing, lowering replacement cycles, etc. However, the industry recorded a decline of 20% in fiscal 2021 on account of pandemic. The consumer durables industry has to log an accelerated 13-15% CAGR during fiscals 2021-2026 to reach ₹ 4.5-5 trillion.

Company: Puranik Builders Limited is among the prominent residential real estate developers in Mumbai Metropolitan Region (“MMR”) and Pune Metropolitan Region (“PMR”) based on number of units currently being marketed in these regions. They are also among the leading residential real estate developers in the growing Thane region of MMR based on the projects currently being marketed and corresponding units sold. They have a longstanding presence of over 31 years in the real estate market in India, developing residential projects in the mid-income affordable housing segment in the MMR and the PMR real estate markets.

Industry: India’s current population provides a huge base for India’s real estate sector, especially in tier 1 cities such as Mumbai and Pune owing to rapid urbanization. The affordable and mid-income housing continue to account for the largest share in new unit launches and accounted for 88% of the share in 2020. The increase in share can be attributed to the government’s efforts towards affordable and mid-income (AMI) housing coupled with consistent demand in the segment, especially from the end-users. The AMI segment is the largest segment and is expected to continue to be the largest segment in the coming years.

Company: Paradeep Phosphates Limited is the 3rd largest private sector manufacturers of non-urea fertilizers in India and 2nd largest in terms of DAP volume sales as of March 2021. They are primarily engaged in manufacturing, trading, distribution and sales of a variety of complex fertilizers such as DAP, three grades of NPK, Zypmite, Phospho-gypsum and HFSA. Their fertilizers are marketed under some of the key brand names in the market 'Jai Kisaan - Navratna' and 'Navratna'. The company was incorporated in 1981. Zuari Maroc Phosphates Pvt Ltd ("ZMPPL"), a joint venture of Zuari Agro Chemicals Ltd ("ZACL") and OCP Group S.A. ("OCP"), currently holds 80.45% of the equity share capital of the company, with the balance being held by the GoI.

Industry: Fertilisers are composed of the following basic nutrients: the primary nutrients are nitrogen, phosphorous and potassium, which are required in large quantities and are normally supplied through chemical fertilizers; secondary nutrients and micronutrients. In addition, operations in the fertilizer industry are capital intensive due to high costs of land acquisition, construction of manufacturing facilities and high costs of equipment and machinery. Due to certain factors such as increase in crop intensity, increase in per capita food consumption and dietary changes, per capita rise in income and ease of credit availability and high subsidy support from the Government. The Company expects to continue witnessing growth in the Indian fertilizer industry.

Company: Northern Arc Capital Limited is a platform in the financial services sector set up primarily with the mission of catering to the diverse credit requirements of under-served households and businesses by providing efficient and reliable access to debt finance. Registered with the RBI as an NBFC not accepting public deposits, they have been operating in the financial inclusion space for over a decade with a business model diversified across offerings, sectors, products, geographies and borrower segments. The company provides access to credit to under-served households and businesses directly and indirectly through their Originator Partners.

Industry: The Indian financial system includes banks and NBFCs. Though the banking system dominates financial services, NBFCs have grown in importance by carving a niche for themselves by catering to customers in under-banked regions or those who were unable to access traditional financial institutions, due to absence of credit history or collateral. Over the last decade, NBFCs have witnessed phenomenal growth. The market share of NBFCs in overall systemic credit has increased from 16% in fiscal 2015 to 20% in fiscal 2021, the reason for which is their ability to offer differentiated solutions to tap into the large unmet demand of various sectors.

Company: Shri Bajrang Power and Ispat Limited (“**SBPIL**”) has emerged as one of the leading integrated steel companies based out of central India and is one of the top 10 players in India in terms of capacity for iron ore pellets, iron ore beneficiation and sponge iron. They utilizes their captive iron mine with an approval to mine 1.2 MTPA and manganese ore mines to manufacture intermediate and long steel products, such as, TMT Bars, ERW pipes manufactured through tubular section mill (“**ERW Pipes**”), wire rods, HB wires including binding wires, ferro alloys, steel billets, iron pellets and sponge iron. The company has a consistent track record of delivering operating profitability, and since Fiscal 2005, they have remained profitable in each of the Fiscal.

Industry: Steel has contributed immensely towards India’s economic growth. This is evident from the similar growth patterns of India’s GDP and steel consumption in the country, which also highlights the economy’s dependence on steel. A gradual expansion in GDP and rise in income has led to robust growth in auto, consumer durables, railways, affordable housing, and rural housing along with low base effect of Fiscal 2017 (demonetisation). As the backbone of the economy, the steel sector continues to play a pivotal role in India’s journey towards the ambitious target to achieve a ₹371.0tn economy goal by Fiscal 2025. Despite unprecedented challenges due to Covid-19 and subsequent lockdowns, the government’s vision of ramping up steelmaking capacity to 300mn tonnes by 2030 remains unaltered.

Bank: Fincare Small Finance Bank Limited ("FSFB") is a "digital-first" SFB with a focus on unbanked and under-banked customers, especially in rural and semi-urban areas. According to CRISIL, among comparable SFB peers in India, FSFB had the highest growth rate in advances over Fiscal 2018 to Fiscal 2020. They follow a business model focused on financial inclusion and aim to provide individuals and businesses with affordable financial products and services that meet their needs. Their business objective is to enhance access to savings, credit and other financial products for unbanked and under-banked individuals, MSMEs and unorganized entities, especially in rural areas, by leveraging technology and last-mile distribution.

Industry: SFBs' AUM clocked a 30% CAGR from Fiscal 2017 to Fiscal 2020. The top three SFBs accounted for approximately 61% of the aggregate AUM as of fiscal 2020, up from 55% in fiscal 2017. These three players logged a 35% CAGR during the period. The top six players account for approximately 86% of the market share. CRISIL Research expects the sector's loan portfolio to see a strong 22% CAGR in the near-term as most of the SFBs have completed the transition phase and are likely to benefit from the operating leverage.

Approx. Issue Size (₹ Cr): 762	BRLMs: Axis Capital , ICICI Securities	
Category Allocation: QIB:HNI:Retail: 50:15:35		

Company: Landmark Cars Limited is a leading premium automotive retail business in India with dealerships for Mercedes-Benz, Honda, Jeep, Volkswagen and Renault. They also cater to the commercial vehicle retail business in India. They have a presence across the automotive retail value chain, including sales of new vehicles, after-sales service (including sales of spare parts, lubricants and accessories), sales of pre-owned passenger vehicles and facilitation of sales of third-party financial and insurance products. They have a network of 112 outlets in 8 Indian states, comprised of 61 sales showrooms and outlets and 51 after-sales service and spares outlets, as of September 30, 2021.

Industry: In the last 5 years, the premium vehicle segment in India has grown at a healthy 8% CAGR, expanding its contribution from 38% in Fiscal 2016 to 56% in Fiscal 2021. For a passenger vehicle dealer, revenue from new vehicle sales forms a dominant 65-75% share of total revenue. Income from the service segment is another major source of revenue for the dealer, and CRISIL Research expects the share of revenue from services to expand going forward due to the technical expertise needed to repair the latest advanced vehicles that only organised dealerships can provide.

Offer Details: Fresh Issue of 5,074,100 Equity Shares

Promoters: Megharam Sagramji Choudhary, Jayantiram Motiram Choudhary, Dhruv Mahendrakumar Patel and Arun Kothari.

Date of Filing: 25-12-2021	Date of SEBI Approval: N.A.	Face value: ₹ 10/-
Approx. Issue Size (₹ Cr): -	BRLMs: SMC Capital	
Category Allocation: QIB:HNI:Retail: N.A.		

Company: Venus Pipes & Tubes Limited is one of the growing stainless-steel pipes and tubes manufacturer and exporter in India having approximately 6 years of experience in manufacturing of stainless-steel tubular products in 2 broad categories: (i) seamless tubes/pipes; and (ii) welded tubes/pipes. They are currently manufacturing 5 product lines, namely, (i) stainless steel high precision & heat exchanger tubes; (ii) stainless steel hydraulic & instrumentation tubes; (iii) stainless steel seamless pipes; (iv) stainless steel welded pipes; and (v) stainless steel box pipes ("**Products**"). Under their brand name "*Venus*", they supply their Products for applications in diverse sectors including (i) chemicals, (ii) engineering; (iii) fertilizers; (iv) pharmaceuticals; (v) power; (vi) food processing; (vii) paper; and (viii) oil and gas.

Industry: The Company operates in the stainless-steel products industry. Stainless steel is a value-added product with high corrosion resistant properties, superior aesthetic finish and higher life span. These features have helped in increasing the popularity of stainless steel across the world. Despite being one of the largest producers as well as consumers of stainless steel, the per capita stainless-steel consumption in India remains low. India's per capital stainless steel consumption has increased from 1.2 kg in 2010 to 2.5 kg in 2019, however, its consumption is much lower compared to the world average of 6 kg per capita. This low consumption pattern is an indication of the inherent opportunities existing in the sector.

Company: Bharat FIH Limited is the largest EMS provider in India, with approximately 15% market revenue share in Financial Year 2021. In addition to their EMS services, which mainly comprise manufacturing services, they are building the capabilities to provide OEMs with a comprehensive, vertically integrated “one-stop solution” comprising a range of ODM services including product design and development, component manufacturing and sourcing, logistics, and after-sales services. They have also been expanding their business into high-growth industries other than mobile phones, including mechanics, electric vehicles, televisions and hearables. They conduct their operations across their campuses based in South India.

Industry: The EMS industry includes domestic electronics production and imports of electronic finished goods. OEMs engage EMS providers for manufacturing services, product design and development, testing, and after-sales services such as repair, remanufacturing, marketing and product lifecycle management. OEMs benefit by outsourcing manufacturing and design activities, enabling them to focus on brand development, customer service and diversification. The Indian market opportunity is driven by the expected increase in electronics usage in the country from the current levels of under-penetration, geographical diversification by OEMs of their manufacturing needs, and the availability of government incentives and other schemes, according to the F&S Report.

Company: Capital Small Finance Bank commenced operations as India's first small finance bank in 2016, and is among the leading SFBs in India in terms of asset quality, cost of funds, retail deposits and CASA deposits for Fiscal 2021. They have the most diversified portfolio with sizeable book in multiple asset classes as compared to other SFBs with a highest proportion of secured lending of 99% as of Fiscal 2021 among the SFBs. They have the best asset quality among the SFBs represented by lowest GNPA and NNPA of 2.08% and 1.13% respectively as of Fiscal 2021. They have an experience of over 2 decades in the banking industry having operated as the largest local area bank prior to their conversion into a small finance bank.

Industry: Small finance banks' AUM clocked 26% CAGR during fiscals 2016 -2021. With their localised past experience, SFBs, especially the ones which were existing as local area banks have the ability to manage local stakeholders and maintain operational efficiency more effectively. CRISIL Research expects the sector's loan portfolio to see a strong ~22% CAGR in the near term as most of the SFBs have completed the transition phase and likely to get benefit from the operating leverage. The share of SFBs in deposits as well as credit has seen a steady rise over the years and is expected to reach 1% and 1.5% respectively by fiscal 2024 from the current 0.6% and 1.0% in deposits and credits in fiscal 2021.

Company: Oravel Stays Limited (OYO) is a leading, new-age technology platform empowering the large yet highly fragmented global hospitality ecosystem¹. They have been focused on reshaping the short-stay accommodation space since their incorporation in 2012. Their unique business model helps their Patrons transform fragmented, unbranded and underutilized hospitality assets into branded, digitally-enabled storefronts with higher revenue generation potential and provides their customers (being travellers and guests who book storefronts on their platform) with access to a broad range of high-quality storefronts at a compelling price point.

Industry: Within the travel and tourism industry, the short-stay accommodation market is one of the fastest growing segments. The short-stay accommodation segment refers to stays of up to 1 month. Going forward, the total short-stay accommodation market is projected to reach US\$1.9 trillion in 2030². Most of the global short-stay accommodation supply is independent, unorganised and fragmented. Company's global total addressable market opportunity as of December 31, 2019 consisted of 54 million storefronts that their full-stack technology platform could have potentially empowered.

Company: CMR Green Technologies Limited is the largest metal recycler in the domestic aluminium recycling industry and amongst the largest in the world. They are primarily focused on the recycling of aluminium, which involves the processing of aluminium based metal scrap to manufacture aluminium alloys and supplying them both in liquid form as well as solid ingots, and on the manufacturing of zinc alloys. Additionally, they focus on segregation and recycling of other metals including stainless steel, copper and brass, and recycling of end-of-life vehicles where they undertake dismantling, shredding and sorting of ELV parts.

Industry: Total aluminium (primary and secondary) demand in India in Fiscal 2020 is estimated at 3.7 million tonnes, logging a CAGR of 5-6% over Fiscals 2015 to fiscal 2020. The demand for secondary aluminium in India zoomed at a CAGR of 9-10% from Fiscal 2015 to 2020, while primary aluminium demand registered a CAGR of 3-4% only. Demand for primary and secondary aluminium is estimated at 2.4 and 1.3 million tonnes, respectively, in Fiscal 2020. The demand for secondary aluminium is primarily led by healthy demand from the auto sector. Rising demand from packaging, consumer durables and construction sectors also led to increased demand. Due to better cost dynamics the share of secondary aluminium in aggregate aluminium market in India rose to 35-36% as of Fiscal 2020 from 29-30% in Fiscal 2015.

Company: Tamilnadu Mercantile Bank Limited is one of the oldest and leading old private sector banks in India with a history of almost 100 years. They offer a wide range of banking and financial services primarily to micro, small and medium enterprises, agricultural and retail customers. As of June 30, 2021, they have 509 branches, of which 106 branches are in rural, 247 in semi-urban, 80 in urban and 76 in metropolitan centres. As of June 30, 2021, their overall customer base was approximately 4.93 million of which 69.96% comprised customers who had been associated with them for over 5 years.

Industry: The Indian banking sector is significantly under-penetrated which provides immense opportunities for banks and other financial institutions. The banking sector enjoyed healthy deposit growth of ~10% CAGR between Fiscals 2015 and 2020. Traditionally, public banks have accounted for the major proportion of the banking credit outstanding. However, low profitability, weak capital position, low operational efficiency, and increase in stressed loans in the past few years led to slowdown in their loan growth. As a result, public banks gradually lost market share to private banks, which were relatively well capitalised and had higher degree of operational efficiency.
