technical analysis combined
with Elliott Wave Principle

**GEO
PROGRAM**

Why we invest - trade ?

wealth creation vs income generation for life goals

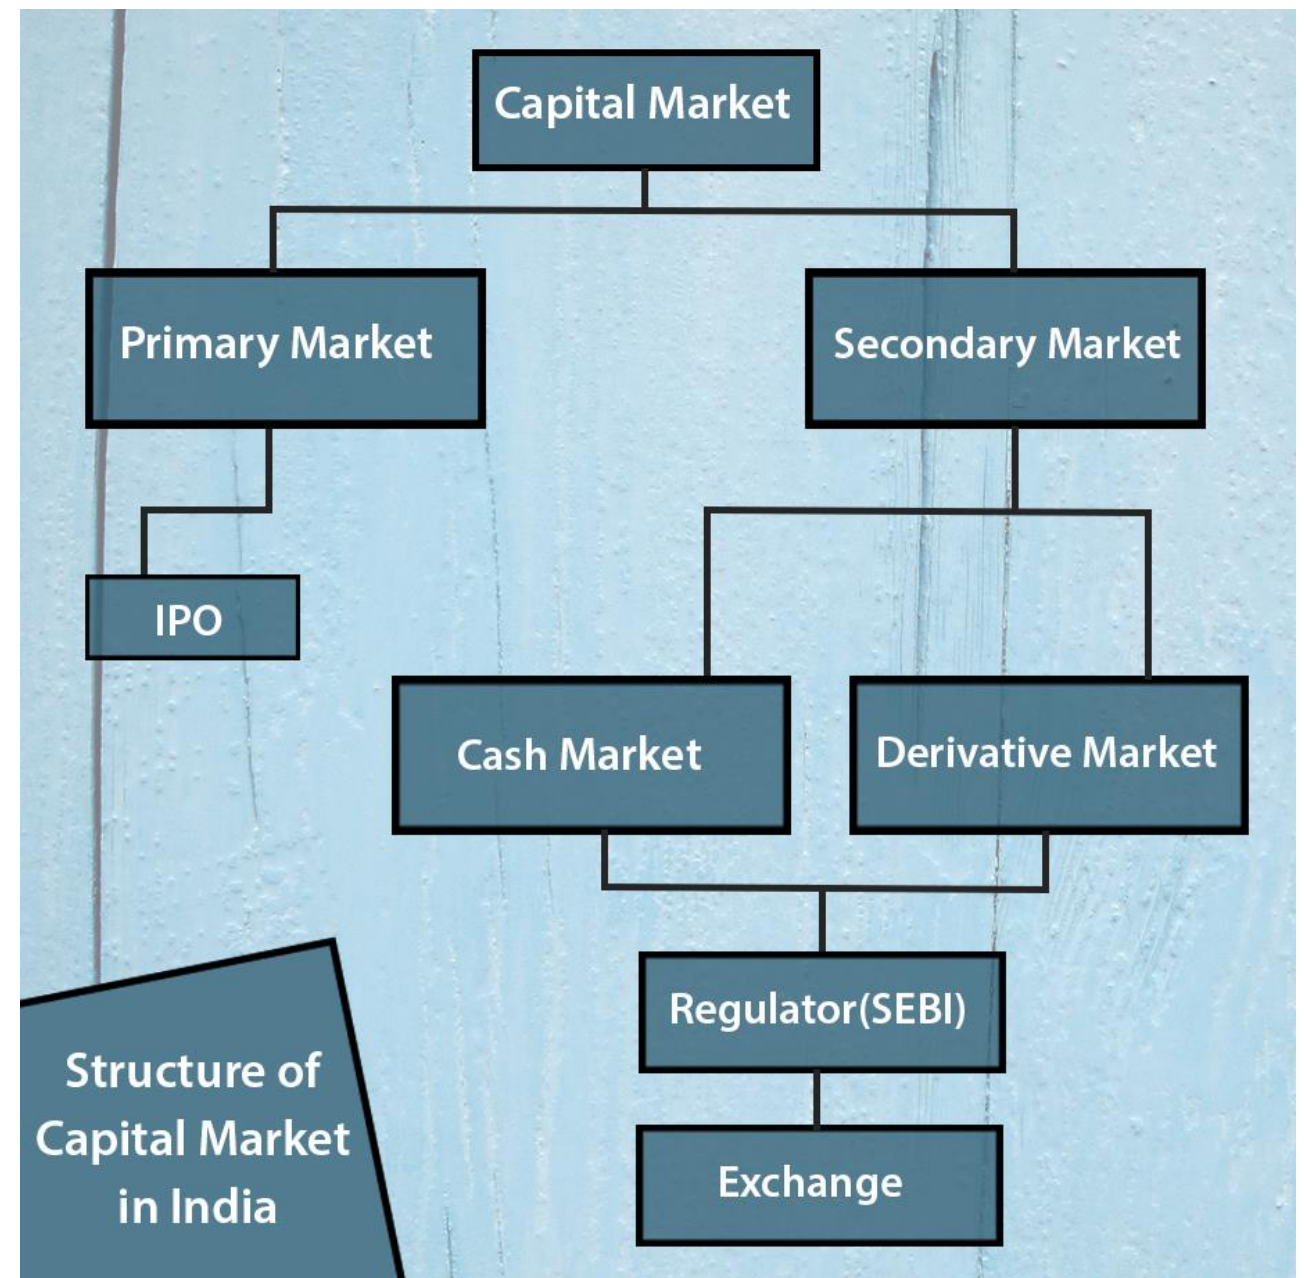

Investment options – Risk vs. Reward

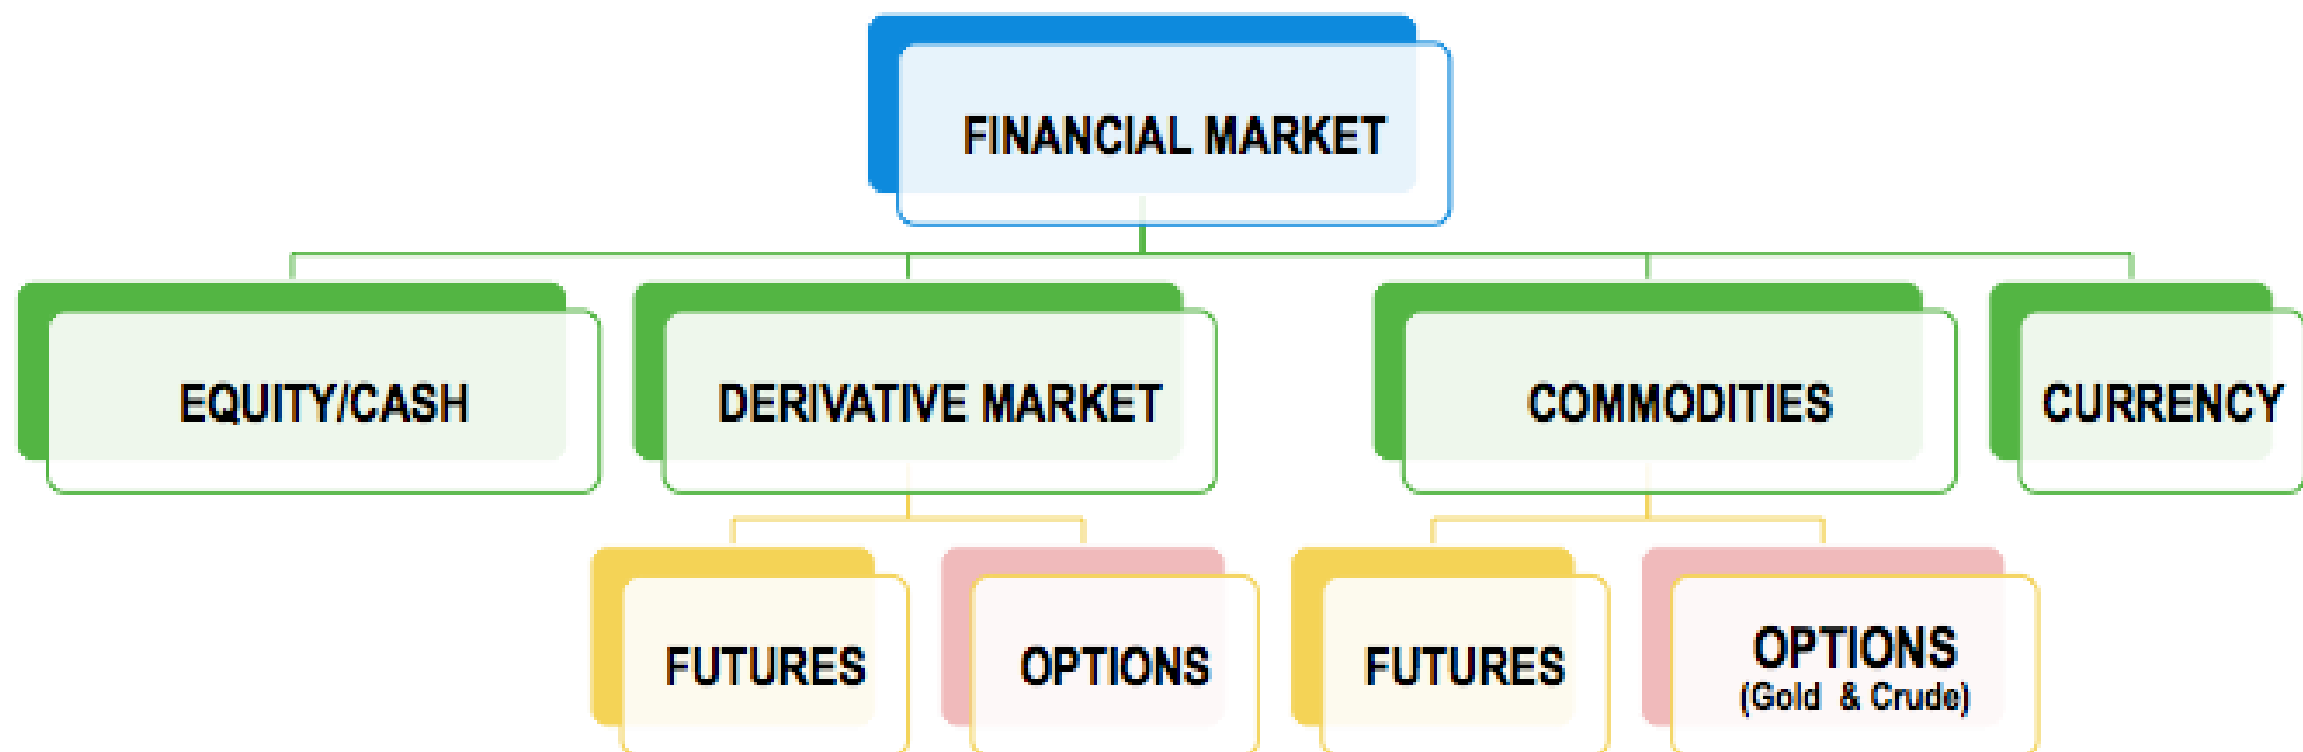

WHAT IS FINANCIAL MARKET?

- Primary Market
 - Initial Public Offering (IPO)
- Secondary Market
 - Bombay Stock Exchange (BSE)
 - National Stock Exchange (NSE).
- MCX.

FINANCIAL MARKETS FOR TRADING

MAJOR STOCK EXCHANGES OF INDIA

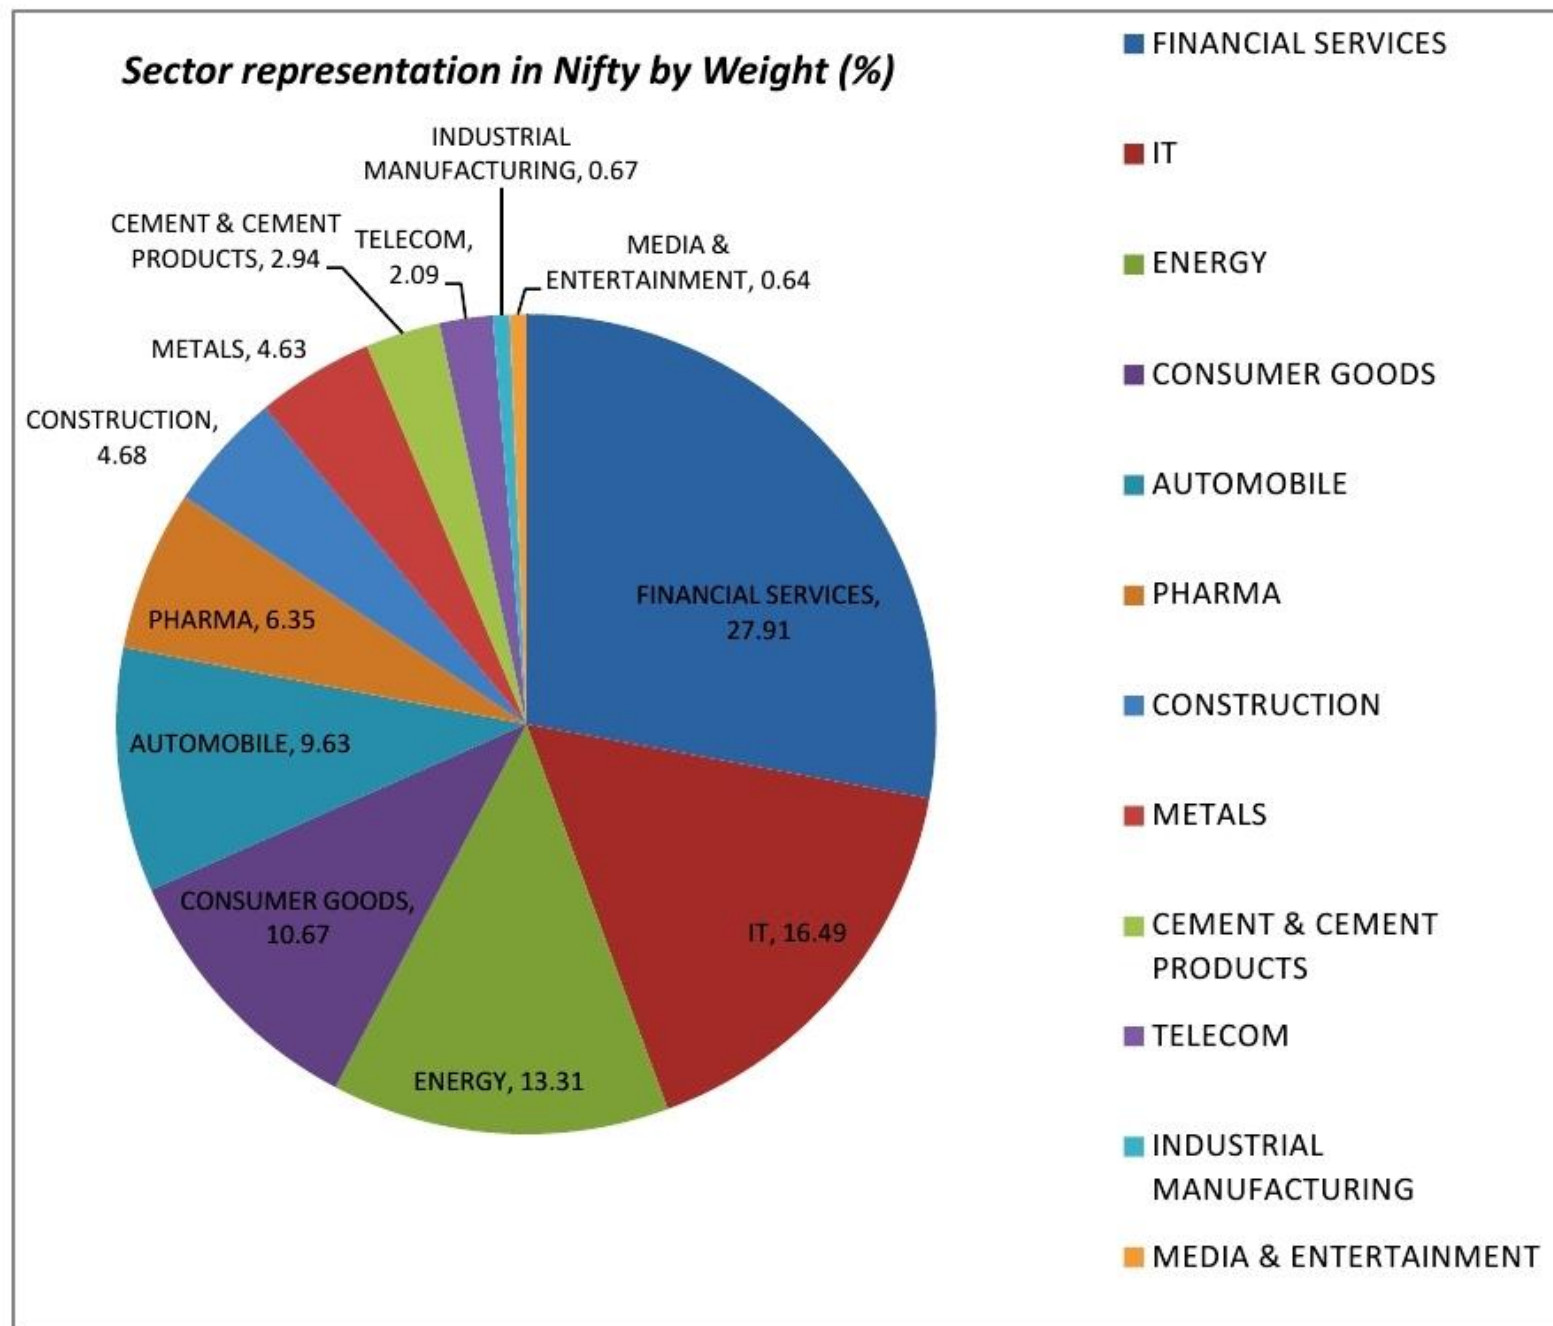

DIFFERENCE BETWEEN EQUITY & FUTURES MARKET

PARAMETERS	EQUITY MARKET	FUTURES MARKET
OWNERSHIP	When you buy a share in Equity market, you actually own that much units of the company.	In Future market, contracts are traded of underlying assets, hence you don't actually own the units of company.
INVESTMENT	Total Value of Shares	Margin Value (15-20% of Total Shares Value)
DURATION OF HOLDING	No Specified Duration	One/Two/Three Months contracts expire at last Thursday of each Month
SHORT SELLING	Only Intra-day	Intra-day as well as Positional
ROI (Eg.: 10% MOVE IN STOCK PRICE)	10%	50-60%
PRICE DENOMINATION	Spot Price	Future Price (Premium or Discount)

IMPORTANT TERMINOLOGIES

- **Long:** It is another name for Buying but into Future market.
- **Short:** It is another name for Selling in Future market. It is also known as Short selling. It helps traders to make profit from declining stock and index prices. Simply put, you first sell at a high and then buy at a low.
- **Target:** A Target is the projected price level of a particular stock based on Technical analysis studies. Trader or Investor can book their complete or partial profit if set target is achieved.
- **Stop Loss:** It is a price at which you want to stop your losses. When your trade goes against your buy or sell decision, you have an exit order in place at a predefined price.
