

THE GOLDEN BAND BREAKOUT

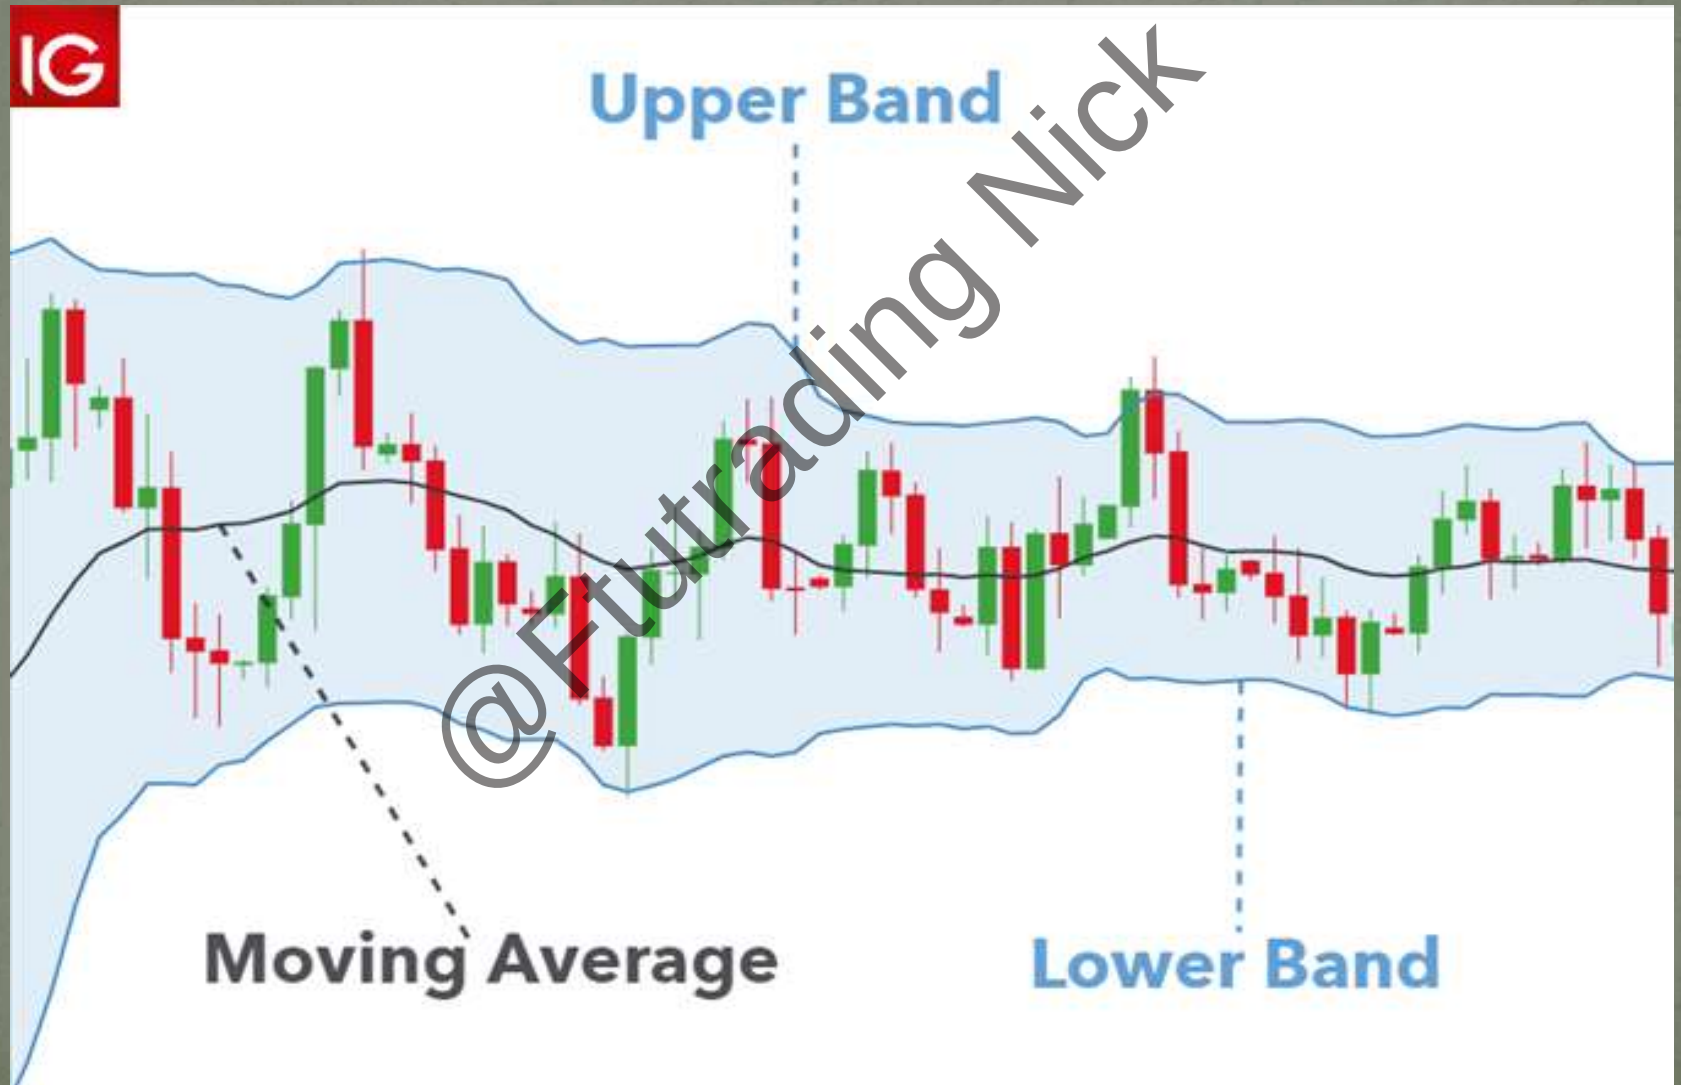

1. WHAT IS BOLLINGER BAND

Bollinger Bands are envelopes plotted at a standard deviation level above and below a simple moving average of the price. ... Bollinger bands help determine whether prices are high or low on a relative basis. They are used in pairs, both upper and lower bands and in conjunction with a moving average.

In simple language

Upper band Resistance ka kaam karta hai and lower band support ka or jo zosma hoti hai uska use entry ke liye karte hai....
